About a Class
Open Seat!

Get the Classes You Need at the Times You Want!

Avoid early class times you didn't want
because all others are full!

Avoid money and time for extra semesters
because you couldn't get into the courses you need!

Avoid wasted time
frantically checking closed sections for an open seat!

How the services works:

- **Course and University Information**

Go to www.classtastic.com, fill-in your university, course number, and term.

- **Communications**

Fill-in your communication information – email, SMS (Text), or IM, or all three.

- **Minimal Cost**

The service is only \$5 per watched class (not per notification)
using secure Google Checkout.

- **Process**

Once an opening in a class is found:

- (1) The first person on the notification list is notified.
 - (2) If the class is available 30 minutes later, the second person is notified.
 - (3) After an hour, everyone else on the list is notified.
- Each user is only notified once until there are no open seats left.
 - If another seat becomes available, everyone will be re-notified as described above.
 - Users can check their slot in the notification queue on Classtastic! web site.

It's That Easy!

NOTE:

Classtastic! has no affiliation with any of the schools or universities used in our services. Classtastic! uses publicly-available information, published by said universities, and is not responsible for the accuracy of that information. Classtastic! cannot be responsible for poor cell phone or Internet service, dropped or lost notifications. Communication information must be entered accurately by the user for notifications to arrive.
